**Dear** < Customer FSE Last Name>,

**Subject:** Obsolescence of Select Heater and Current Sensors

This is to inform you that effective June 30, 2018, Honeywell will no longer offer select heater and current sensors due to limited material. We encourage our customers to place last time buy orders quickly to gain priority in the allocation of the remaining raw material.

< Affected Product Family, Series, Listings>

Honeywell values its customers and realizes that incorporating heater and current sensors from another manufacturer may require transition time. We want to work with you to make this a smooth transition to the available solution.

If you have any questions, please contact your Honeywell sales consultant, your sales representative for Honeywell products, or me.

Sincerely,
